quinso
QUALITY IN SOLUTIONS

SAP Gold Partner

Quinso Q-MES is an integrated end-to-end shop floor solution that realizes a direct connection between the machines on the shop floor and the operational (SAP) ERP systems within your organization. Embedded SAP Analytics Cloud enables real time reporting. Packaged at a fixed price.

INTEGRATED SMART MANUFACTURING

TOP 5 ADVANTAGES OF QUINSO Q-MES

- Capture costs more accurately
- Reduce waste, scrap & overages
- Decrease downtime
- Reduce costs
- Reduce inventory

SEAMLESS INTEGRATION

- With SAP S/4HANA
- With SAP ECC
- With SAP Analytics Cloud (SAC)
- With SCADA systems & smart sensors
- With Programmable Logic Controller (PLC)

REAL-TIME REPORTING WITH SAP ANALYTICS CLOUD

- Overall Equipment Effectiveness (OEE)
- Utilization (planning vs real)
- Unplanned downtimes
- Non-productive & rework time
- Changeover times
