SAP Thought Leadership | SAP S/4HANA Cloud, private edition | PUBLIC

Move to the Cloud While Safeguarding Your Prior Investments

SAP S/4HANA Cloud, private edition

THE BEST RUN **SAP**

A New Way of Doing Business with SAP

SAP S/4HANA Cloud®, private edition, a key component of RISE with SAP, is a modern ERP comprising digitally enabled processes, improved decision making based on predictions and simulations, and intelligent automation that give your organization the resiliency and agility it needs to become an intelligent enterprise. Now you can focus on your core business, while SAP and partners minimize your risk by managing your IT infrastructure on powerful hyperscaler clouds.

For years, you have relied on SAP as a trusted technology business partner. With SAP S/4HANA Cloud, private edition, SAP takes responsibility for the software support, technical management services, and infrastructure of your cloud-based intelligent ERP landscape.

You can now benefit from the full value of SAP S/4HANA Cloud at the lowest cost, complexity, and risk. With one set of service level agreements and one point of contact, you can achieve significant benefits, including:

- **Faster deployment** with well-established conversion methodologies

- **Scalable performance**, operational reliability, infrastructure security, and lower total cost of ownership delivered with the hyperscaler of your choice

- **Access to SAP Business Technology Platform** to simplify integration and extensibility

- **Use of the full scope of SAP S/4HANA Cloud** with support for 25 industries, 64 countries, and 39 languages

- **Rapid savings** by ending maintenance payments on traditional perpetual licenses

Safeguard Your Existing Investments
SAP S/4HANA Cloud, private edition, delivers a new level of flexibility previously unavailable in a cloud solution. This advantage allows you to tailor the software to meet your specific needs and retain the company-specific configurations and customizations of your deployment of SAP® ERP Central Component (SAP ECC), SAP Solution Extensions, and a broad portfolio of SAP-certified partner solutions.

With SAP S/4HANA Cloud, private edition, the investments that give your company a competitive advantage will remain.

Reduce the Cost of Your Organization's ERP Implementation

With SAP S/4HANA Cloud, private edition, your business no longer needs to pay maintenance fees nor optimize and maintain a technology infrastructure.

According to a recent cost analysis from IDC, customers using SAP ECC can reduce their total cost of operations by more than 20% when they move to SAP S/4HANA Cloud, private edition.[1] A transition from a traditional capital expenditure model to cloud-based operating expense approach can lower costs and make them more predictable.

The Global Ecosystem You Need to Succeed
SAP S/4HANA Cloud, private edition, enables you to benefit from the partnerships that have made SAP one of the world's global leaders in ERP.

Working with the major hyperscalers, SAP has developed reference architectures to optimize implementations. Leading system integrators provide advisory and implementation services to help manage your approach and application management services to guide you through the process of developing more effective technical and business practices.

With SAP S/4HANA Cloud, private edition, which is offered as part of RISE with SAP, you have the foundation to transform to an intelligent enterprise.

1 Based on 2020 IDC research on SAP ERP Central Component and SAP S/4HANA.
